MOHAMMAD AMIN SHAHIDI

Software Engineer

PROFILE

I was born in Tehran and grew up in Karaj (20 kilometers west of Tehran). My family was always computer oriented because of working in IT industry. Because of that (and my own interest) I got my bachelor's degree in Computer Engineering (from Iran University of Science and Technology, Tehran, Iran). I'm Currently working as a SharePoint and full-stack JavaScript developer. I am also master's student of Information Technology Engineering (ITS Subfield) in Tarbiat Modares University, Tehran, Iran. I can't say that I'm a tech geek but I love to work with new technologies.

EDUCATION

Iran University of Science and Technology
2017 - 2022
Bachelor's degree in computer engineering-Final theasis

Tarbiat Modares University
2022 - Current
Master's degree in Information Technology Engineering (ITS Subfield)

WORK EXPERIENCE

Self-Employed (Django Back-End Developer)
Sep 2020 – Jun 2021 (1 year)
I and four of my university classmates started the project under the title of Vshare virtual cinema. It took a year to complete. Vshare was a web service that made it possible to watch video simultaneously between people. Its back-end source code is available.

Creative Partner Consulting (SharePoint and Full-stack JavaScript Developer)
May 2022 – Mar 2023
Responsible for developing and maintaining SharePoint Sites as well as using BPC Power Forms. Developing Stand-alone websites using JavaScript and Node.js to serve as additional web services for SharePoint sites. Also responsible for the development and administration of BI tools using Microsoft Power BI. Creative Partner Consulting is an international HR Consulting and Staffing agency that tries to change its clients work environment into interactive, learning-full, creative, enjoyable and ethical workplace.

Norma Group (SharePoint and BI Specialist)
Mar 2023 – Current
Maintaining and developing SharePoint based services and providing administration with BI dashboards using Power BI and SQL. Adding Auxiliary services via NodeJS to existing SharePoint sites.
